Press Release

FOR IMMEDIATE RELEASE

MCLANAHAN TO SHOWCASE THEIR EQUIPMENT FOR MORE PROFICIENCY, EFFICIENCY AND PRODUCTION AT CONEXPO

Hollidaysburg, Pa., December 20, 2016 – Minimizing both costs and downtime is vital to CONEXPO-CON/AGG attendees. With this in mind, McLanahan Corporation will showcase three brand new pieces of equipment dedicated to helping producers increase production and efficiency.

At Booth #C31027, the company will feature a cross belt sampler, the MAX Series Inclined Vibrating Screen, the newest version of their long-standing modular wet processing plant, and one solution so new and exciting that it won't be revealed until it's on the show floor! Additional processing solutions will be showcased using 3-D models. McLanahan will also display an array of wear solutions as part of the company's commitment to supporting customers through the life of the machine.

Visitors will be able to speak with McLanahan sales and process experts from around that world at Booth #C31027. With offices in six countries, McLanahan is committed to providing customers with local service and support through their 24/7 Global Response Team. Stop by and talk to McLanahan about a custom engineered solution to make you more efficient, more productive and more profitable.
